CANADIAN SINGLE MALT

WHISKY

OAK BARREL **10** YEARS AGED

A UNIQUE COLLABORATION

A Still Master. A Head Brewer. And years of long talks and a shared excitement to create something special. A decade later, our single malt Canadian Whiskey is like no other.

EXPERIENCE MATTERS

We've been producing exciting craft beers and exotic spirits for over 25 years. For our whisky collaboration, we had the perfect environment — our award winning brewery and distillery under one roof working together to deliver a whisky beyond the ordinary while allowing us to control the entire process from start to finish.

HOW IT'S MADE

To create our custom, 100% light peated barley malt, different blends were tried until a smoky flavour was achieved. The wash was slowly double pot distilled before being aged carefully for 10 years in craft beer barrels made by our in-house cooper. As each year passed, the batch was tasted until it reached a fine, Canadian whisky that our brewery and distillery teams were proud to call their own.

WHAT A DIFFERENCE A DECADE MAKES

Patient aging has created a golden, fruity and sherried whisky with flavours of lush vanilla, chocolate almonds and a hint of smokiness. The nose of honey, chocolate, spices and very light peat is well balanced and accompanied with a very smooth, long finish.

HOW TO ENJOY

Sip it neat or on the rocks. Pair with aged cheddar, dried fruits, roasted nuts or salted caramel dark chocolate. An essential to have on hand for popular cocktails like a Manhattan or whisky smash.

750ml • 42% alc./vol.
